Motivations

Justin is in his junior year of high school and is preparing to start applying for college. Justin's highschool also has a volunteer hour requirement of 100 hours and he is building his resume for college applications. Justin is passionate about volunteering and tutoring. He is extremely smart and tech-savvy but has struggled to find opportunities that he can participate in a wheelchair.

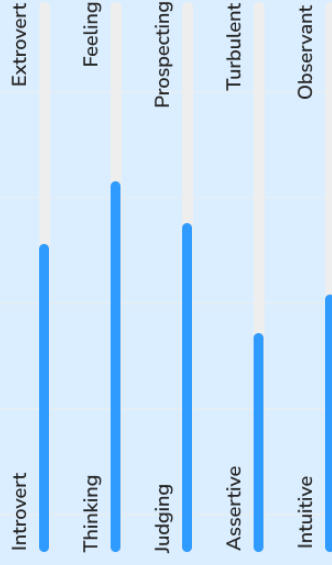

Goals

- Track volunteer hours
- Search and find volunteer opportunities that are wheelchair accessible.
- Search and find volunteer opportunities that cater to his technical skills
- Save volunteer opportunity information or contact information for later use

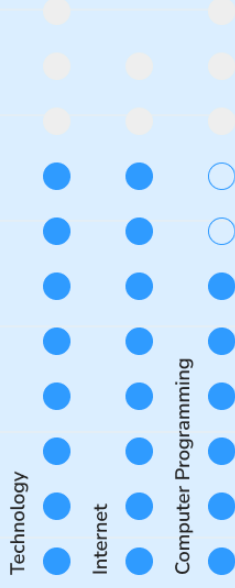

Pain Points

- Justin struggles to find volunteer opportunities he can actively participate in given that he is in a wheelchair
- Justin has shown up to events and not been able to participate because of accessibility
- Justin has participated in volunteering events but forgot to receive a signature from supervisor so the hours didn't count for highschool requirements
